# Forward-Looking Statements

In this presentation, and the oral remarks made in connection herewith, Light & Wonder makes “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as “may,” “will,” “estimate,” “intend,” “plan,” “continue,” “believe,” “expect,” “anticipate,” “target,” “guidance,” “should,” “could,” “potential,” “opportunity,” “goal,” or similar terminology. These statements are based upon current Company management (“Management”) expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: our inability to successfully execute our strategy; slow growth of new gaming jurisdictions, slow addition of casinos in existing jurisdictions and declines in the replacement cycle of gaming machines; risks relating to foreign operations, including anti-corruption laws, fluctuations in currency rates, restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability; difficulty predicting what impact new or increased tariffs imposed by and other trade actions taken by the U.S. and foreign jurisdictions could have on our business; U.S. and international economic and industry conditions, including changes in consumer sentiment and discretionary spending, increases in benchmark interest rates and the effects of inflation; public perception of our response to environmental, social and governance issues; the effects of health epidemics, contagious disease outbreaks and public perception thereof; changes in, progress under, or the elimination of our share repurchase program; level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs; inability to further reduce or refinance our indebtedness; restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness; competition; inability to win, retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; risks and uncertainties of ongoing changes in U.K. gaming legislation, including any new or revised licensing and taxation regimes, responsible gambling requirements and/or sanctions on unlicensed providers; inability to adapt to, and offer products that keep pace with, evolving technology, including any failure of our investment of significant resources in our R&D efforts; failure to retain key Management and employees; unpredictability and severity of catastrophic events, including but not limited to acts of terrorism, war, armed conflicts or hostilities, the impact such events may have on our customers, suppliers, employees, consultants, business partners or operations, as well as Management’s response to any of the aforementioned factors; changes in demand for our products and services; dependence on suppliers and manufacturers; SciPlay’s dependence on certain key providers; ownership changes and consolidation in the gaming industry; fluctuations in our results due to seasonality and other factors; the risk that any potential disruptions from the Grover acquisition will harm relationships with customers, employees and suppliers; the possibility that the Company may be unable to achieve expected financial, operational and strategic benefits of the Grover acquisition and may not be able to successfully integrate Grover into the Company’s operations; risks relating to delisting our securities from Nasdaq and transitioning to a sole primary listing on the ASX, which could negatively affect the liquidity and trading prices of our common stock or CDIs, impacts our investors’ ability to trade in our securities and our access to the capital markets and could lead to price variations and other impacts on holders of our common stock, CDIs and other securities; risks associated with having a sole primary listing on the ASX and remaining an SEC registrant, including significant compliance costs and risks of noncompliance; security and integrity of our products and systems, including the impact of any security breaches or cyber-attacks; protection of our intellectual property, inability to license third-party intellectual property and the intellectual property rights of others; reliance on or failures in information technology and other systems; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property, environmental laws and our strategic relationships; reliance on technological blocking systems; challenges or disruptions relating to the completion of the domestic migration to our enterprise resource planning system; laws, government regulations and new or increased trade tariffs, both foreign and domestic, including those relating to gaming, data privacy and security, including with respect to the collection, storage, use, transmission and protection of personal information and other consumer data, and environmental laws, and those laws and regulations that affect companies conducting business on the Internet, including online gambling; legislative interpretation and enforcement, regulatory perception and regulatory risks with respect to gaming, including Internet wagering, social gaming and sweep-stakes; changes in tax laws or tax rulings, or the examination of our tax positions; opposition to legalized gaming or the expansion of such opposition and potential restrictions on Internet wagering; significant opposition in some jurisdictions to interactive social gaming, including social casino gaming and how such opposition could lead these jurisdictions to adopt legislation or impose a regulatory framework to govern interactive social gaming or social casino gaming specifically, and how this could result in a prohibition on interactive social gaming or social casino gaming altogether, restrict our ability to advertise our games, or substantially increase our costs to comply with these regulations; expectations of the shift to regulated digital gaming; inability to develop successful products and services and capitalize on trends and changes in our industries, including the expansion of Internet and other forms of digital gaming; the continuing evolution of the scope of data privacy and security regulations, and our belief that the adoption of increasingly restrictive regulations in this area is likely within the U.S. and other jurisdictions; incurrence of restructuring costs; goodwill impairment charges including changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; stock price volatility; failure to maintain adequate internal control over financial reporting; dependence on key executives; natural events, including natural disasters, extreme weather and other natural events related to climate change, that disrupt our operations, or those of our customers, suppliers or regulators; and expectations of growth in total consumer spending on social casino gaming.

Additional information regarding risks and uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC and the ASX, including the Company’s current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC for the year ended December 31, 2025 on February 24, 2026 (including under the headings “Forward-Looking Statements” and “Risk Factors”). Forward-looking statements speak only as of the date they are made and, except for our ongoing obligations under the U.S. federal securities laws and ASX Listing Rules obligations, we undertake no and expressly disclaim any obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.

You should also note that this presentation may contain references to industry market data and certain industry forecasts. Industry market data and industry forecasts are obtained from publicly available information and industry publications. Industry publications generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of that information is not guaranteed. Although we believe industry information to be accurate, it is not independently verified by us, and we do not make any representation as to the accuracy of that information. In general, we believe there is less publicly available information concerning the international gaming, charitable gaming, social and digital gaming industries than the same industries in the U.S.

## Highlights

- **Consolidated Revenue growth +2%** driven by Gaming and iGaming, underpinned by continued operational momentum and game content strength, partially offset by softness at SciPlay
- **Consolidated AEBITDA<sup>(2)</sup> growth +5%** driven by:
  - Grover contribution
  - Business segment margin expansions, as we continue to build on our diversified, recurring-revenue<sup>(3)</sup> oriented business model
  - Higher corporate costs on elevated legacy legal matter related expenses and initial AI investments
- **Disciplined focus on profitability** led to meaningful YoY AEBITDA margin expansion across all segments as we continue to identify and execute on business efficiencies across the organization
- Our omni-channel portfolio, robust R&D engine, strong structural moat, and ongoing investments into AI initiatives and infrastructure, positions us well for sustainable growth and efficiency

### Quarterly Net Debt Leverage Ratio<sup>(2)</sup> Summary

### Maturity Schedule<sup>(6)</sup>

(1) Principal face value of debt outstanding represents outstanding principal value of debt balances that conform to the presentation found in Note 10 to the Condensed Consolidated Financial Statements in our March 31, 2026 Form 10-Q.  
 (2) Represents a non-GAAP financial measure. Additional information on non-GAAP financial measures presented herein is available in the appendix.  
 (3) Represents a forward-looking non-GAAP financial measure presented on a supplemental basis. Additional information on non-GAAP financial measures presented herein is available in the appendix.  
 (4) Effective Interest costs include borrowings, hedging costs, hedging benefits, and other finance fees. On January 22, 2026, the Term Loan B margin was reduced by 25 bp pursuant to a credit agreement amendment.  
 (5) Inclusive of \$700 million in interest rate swaps used to effectively fix the interest that we pay on our variable rate debt.  
 (6) As of 3/31/2026. Available liquidity is calculated as cash and cash equivalents plus remaining revolver capacity.

# Maintaining Flexibility on Our Capital Allocation Initiatives

## Optimized Capital Structure on Opportunistic Debt Reduction

- Preserving financial flexibility and a healthy liquidity position within net debt leverage ratio target range<sup>(1)(2)</sup> of 2.5x - 3.5x
- Flexible capital structure enables us to deploy balance sheet capacity where appropriate

## Capital Return to Shareholders<sup>(3)</sup>

- Returned \$22 million in 1Q26
- Total \$1.9 billion returned to shareholders through the repurchase of 24.6 million shares or CDIs<sup>(4)</sup>, representing 25% of total outstanding shares prior to the commencement of the two share repurchase programs
- Remaining capacity of \$314 million<sup>(3)</sup>

## Disciplined Investment in Key Growth Opportunities

- Strategic investments in R&D, content development, and growth initiatives across all platforms
- R&D and CapEx Investment<sup>(5)</sup> at ~17.8% of Consolidated Revenue in 1Q26
- Ongoing investments weighted towards the first half of the year, including AI infrastructure

***We remain committed to reducing leverage to below 3.0x during the first half of 2027. In parallel, we intend to accelerate share repurchases meaningfully in Q2***

(1) Additional information on the non-GAAP financial measure targeted net debt leverage ratio is available in the appendix.  
(2) Represents a forward-looking non-GAAP financial measure presented on a supplemental basis. Additional information on non-GAAP financial measures presented herein is available in the appendix.  
(3) Share repurchase activity is subject to necessary Board approvals, capital allocation priorities and prevailing market conditions.  
(4) CHES Depository Interests.  
(5) Targeting spend of ~17% of Consolidated Revenue on R&D and Capital Expenditures. Q4 actual 17.2% and FY25 actual 17.0%, within QoQ targeted range between 15% and 20% of consolidated revenues.

LIGHT &  
WONDER™

# Outlook

# FY26 Outlook

Subject to uncertain externalities (geopolitical, regulatory changes, etc.), Light & Wonder forecasts delivering mid-to-high single-digit Consolidated AEBITDA<sup>(1)</sup> growth in FY 2026.

This takes into consideration current estimates:

- |  |                             |
|--|-----------------------------|
| (a) External factors (U.S. tariffs, change in U.K. iGaming tax rates)    | (est. \$40M adverse impact) |
| (b) Strategic investments (AI, new market openings e.g., Grover Indiana) | (est. \$20M)                |
| (c) Legacy costs pertaining to legal matters                             | (est. \$10M)                |

Delivering mid-to-high single digit Consolidated AEBITDA<sup>(1)</sup> growth translates into another year of strong Adjusted NPATA<sup>(1)</sup> and EPSa<sup>(1)(2)</sup> growth.

We continue to anticipate the shape of earnings to be broadly in line with 2025. This reflects industry cyclicality and our customer capex intentions, our growing recurring revenue base<sup>(3)</sup>, and investments weighted more towards the 1H.

## Operationally, all business units continue targeting above category growth with a particular focus across our recurring revenue<sup>(3)</sup> parts of our business

- Prioritize North American premium Gaming operations net installs base growth (500+/quarter). Continued North American game sales momentum following a record 2025
- Improved performance in ANZ pending new cabinet launches and a robust pipeline of supporting games
- Lower systems sales growth expected in 2026
- Continued Grover Charitable Gaming operations net install base growth across both new and incumbent markets
- SciPlay revenue stabilization and increasing direct-to-consumer mix
- iGaming emphasis on 1<sup>st</sup> party proprietary game expansion

From a capital management perspective, we are committed to de-lever our balance sheet below the midpoint of our targeted (2.5x to 3.5x) net debt leverage ratio range<sup>(4)(5)</sup> over the next 12 months, notwithstanding the continuation of aggressive (share price dependent) share repurchases

## Incremental Modelling parameters (unchanged)

- Continue to reinvest (Combined R&D / Capex) in a targeted, effective manner, in line with revenue growth and consistent with prior years; FY24: 17.4% and FY25 17.0% of consolidated revenue, with investments weighed toward the first half of the year
- An effective tax rate range between 22% and 24%
- Effective interest cost (inclusive of hedging and finance fees) of 6.0% - 7.0%
- Amortization of Acquired Intangibles in 2026 to be materially in line with the annualized amortization recognized in the second half of 2025<sup>(6)</sup> (\$130M to \$140M)

L&W remains committed to its FY28 targets of >USD\$10.55/share (>A\$14.66<sup>(7)</sup> /share) EPSa<sup>(1)(2)</sup> and \$2.0B Consolidated AEBITDA<sup>(1)</sup>

ANZ: Australia / New Zealand.

(1) Denotes a non-GAAP financial measure with additional information available in the appendix. We are not providing forward-looking quantitative reconciliations of targeted Consolidated AEBITDA or targeted EPSa to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

(2) Adjusted NPATA per share (EPSa) is calculated based on weighted average number of diluted shares.

(3) Recurring revenue include Gaming Operations (inclusive of Grover), ongoing Gaming systems maintenance, table services/rental agreements, SciPlay and iGaming revenues.

(4) Additional information on the non-GAAP financial measure targeted net debt leverage ratio is available in the appendix.

(5) Represents a forward-looking non-GAAP financial measure presented on a supplemental basis. Additional information on non-GAAP financial measures presented herein is available in the appendix.

(6) Excluding impact of any impairments and/or future acquisitions.

# Artificial Intelligence – A Light & Wonder Growth Enabler

*L&W is taking a leadership role in leveraging its strong gaming traits and leaning into AI as part of ways of working. We look at AI in two ways:*

## Attack: By Growth and Productivity

L&W is deploying a combination of proven, market-leading AI solutions alongside proprietary tools purpose-built to address gaming-specific opportunities:

- **Technology** - Accelerating new platform development and technical debt reduction through AI-assisted architecture, code generation, test automation, and security reviews - with additional opportunities being actively explored
- **Content** - Focus on realizing improved quality, hit rate and quantum of games - targeting improvement in non-creative lead times such as localization and regulatory adaptation across jurisdictions, driving more Studio focus on concept to game polish
- **Business Operations** - Extending AI across sales enablement, customer support, supply chain optimization, predictive analytics, IT operations and more - unlocking margin improvement and operational scalability across the enterprise

## Defend: We have a strong Moat built around

- **Strong, Established Market Positions**
- **Gaming Regulations** (over 500 licenses approved worldwide)
- **Scale and Incumbency** (combined \$562M R&D and Capex spend in FY25)
- **Valuable IP and Brands** (e.g. long-lived titles *HUFF N' PUFF™*, *ULTIMATE FIRE LINK™*, *DANCING DRUMS™*, *JOURNEY TO THE PLANET MOOLAH™*, etc.)
- **Unique Data Sets** (e.g. decades of certified math models, OGS player session data, and A/B testing capabilities at SciPlay)
- **Proprietary Platform** (e.g. 5-7 proprietary cabinets built annually that are not easily replicated)
- **Strong customer relationships and market leading distribution** (including physical presence across thousands of gaming venues globally)

# Non-GAAP Financial Measures

Management uses the following non-GAAP financial measures in conjunction with GAAP financial measures: Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share (on a diluted basis) (also referred to as EPSa), Normalized EBITA, Normalized EBITDA, Consolidated AEBITDA, Grover Adjusted EBITDA, Combined AEBITDA, Consolidated AEBITDA margin, Free cash flow, Adjusted Free cash flow, Net debt, Net debt leverage ratio and Combined net debt leverage ratio (each, as described more fully below). These non-GAAP financial measures are presented as supplemental disclosures. They should not be considered in isolation of, as a substitute for, or superior to, the financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. The non-GAAP financial measures used by the Company may differ from similarly titled measures presented by other companies. Following our transition to a sole primary listing on the ASX, Management introduced usage of Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share (EPSa), Normalized EBITA and Normalized EBITDA, all of which are non-GAAP financial measures and are widely used to measure the performance as well as a principal basis for valuation of gaming and other companies listed on the ASX. Specifically, Management uses Consolidated AEBITDA to, among other things: (i) monitor and evaluate the performance of the Company's operations; (ii) facilitate Management's internal and external comparisons of the Company's consolidated historical operating performance; and (iii) analyze and evaluate financial and strategic planning decisions regarding future operating investments and operating budgets. In addition, Management uses Consolidated AEBITDA and Consolidated AEBITDA margin to facilitate its external comparisons of the Company's consolidated results to the historical operating performance of other companies that may have different capital structures and debt levels. Following the closing of the Grover acquisition, Management introduced usage of certain of these non-GAAP financial measures on a "Combined" basis. Combined non-GAAP financial measures include results for both the Company and Grover on a combined basis, inclusive of periods prior to the closing of the acquisition. The Combined measures do not reflect any pro forma adjustments or other adjustments for costs related to integration activities, cost savings or other synergies that have been or may have been achieved if the business combination occurred as of the beginning of the applicable twelve-month period. We cannot assure you that such measures would not be materially different if such information were audited or that our actual results would not differ materially from the Combined measures if the acquisition had been completed as of the beginning of the applicable twelve-month period. Management uses Net debt, Net debt leverage ratio and Combined net debt leverage ratio in monitoring and evaluating the Company's overall liquidity, financial flexibility and leverage. Management believes that these non-GAAP financial measures are useful as they provide Management and investors with information regarding the Company's financial condition and operating performance that is an integral part of Management's reporting and planning processes. In particular, Management believes Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share, Normalized EBITA and Normalized EBITDA are useful for investors because they provide investors with additional perspective on performance, as the measures eliminate the effects of, as applicable, amortization of acquired intangible assets, restructuring, transaction, integration, certain other items, and the income tax impact on such adjustments, which Management believes are less indicative of the ongoing underlying performance of operations and are better evaluated separately. These measures are widely used to measure performance of gaming and other companies listed on the ASX. Management believes that Consolidated AEBITDA is helpful because this non-GAAP financial measure eliminates the effects of restructuring, transaction, integration or other items that Management believes are less indicative of the ongoing underlying performance of the Company's operations (as more fully described below) and are better evaluated separately. Management believes that Free cash flow and Adjusted Free cash flow provide useful information regarding the Company's liquidity and its ability to service debt and fund investments. Management believes that the Combined measures are useful to investors because they provide additional information regarding the combined business of the Company and Grover across the periods being presented, allowing for more meaningful

comparisons of overall liquidity, financial flexibility and leverage. Management also believes that Free cash flow and Adjusted Free cash flow are useful for investors because they provide investors with important perspectives on the cash available for debt repayment and other strategic measures, after making necessary capital investments in property and equipment, necessary license payments to support the ongoing business operations, adjustments for changes in restricted cash impacting working capital, and, in the case of Adjusted Free cash flow, further adjustments for legal settlements and strategic initiative payments.

## Adjusted NPAT and Adjusted NPATA

Adjusted NPAT and Adjusted NPATA, as used herein, are non-GAAP financial measures that are presented as supplemental disclosures of the Company's operations and are reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT," which includes reconciliations for several non-GAAP financial measures. Adjusted NPAT and Adjusted NPATA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Adjusted NPAT and Adjusted NPATA may differ from similarly titled measures presented by other companies.

Adjusted NPAT is reconciled to Net income and includes the following adjustments, as applicable: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (2) Loss on debt financing transactions; (3) Change in fair value of investments and Gain on remeasurement of debt and other; (4) Income tax impact on adjustments; and (5) Other income, net, including foreign currency gains or losses and earnings from equity investments. Adjusted NPATA is reconciled to Net income and includes the following incremental adjustments to those used to reconcile Adjusted NPAT: (1) Amortization of acquired intangible assets; (2) Non-cash asset and goodwill impairments; and (3) Income tax impact on adjustments.

## Adjusted NPATA Per Share – Diluted (EPSa)

Adjusted NPATA per share (EPSa), as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure of the Company's operations on diluted basis and is reconciled to diluted net (loss) income per share as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Adjusted NPATA Per Share." Adjusted NPATA per share should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Adjusted NPATA per share may differ from similarly titled measures presented by other companies. Adjusted NPATA per share is reconciled to diluted net income per share and includes the same adjustments with respect to Adjusted NPATA as described in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT" in per share amounts. Adjusted NPATA per share target, or Targeted EPSa, denotes a non-GAAP financial measure. We are not providing a forward-looking quantitative reconciliation of Adjusted NPATA per share target to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

# Non-GAAP Financial Measures (continued)

## Normalized EBITA and Normalized EBITDA

Normalized EBITA and Normalized EBITDA, as used herein, are non-GAAP financial measures that are presented as supplemental disclosures of the Company's operations and are reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT," which includes reconciliations for several non-GAAP financial measures. Normalized EBITA and Normalized EBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Normalized EBITA and Normalized EBITDA may differ from similarly titled measures presented by other companies.

Normalized EBITA is reconciled to Net income and includes the following adjustments, as applicable: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (2) Loss on debt financing transactions; (3) Change in fair value of investments and Gain on remeasurement of debt and other; (4) Other income, net, including foreign currency gains or losses and earnings from equity investments; (5) Amortization of acquired intangible assets; (6) Non-cash asset and goodwill impairments; (7) Interest expense; and (8) Income tax expense and impact on adjustments. Normalized EBITDA is reconciled to Net income and, along with the adjustments used to reconcile Normalized EBITA, includes an adjustment for depreciation and amortization expense.

## Consolidated AEBITDA

Consolidated AEBITDA, as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure of the Company's operations and is reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedules titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT" and "L&W Reconciliation of Consolidated AEBITDA, Grover Adjusted EBITDA and Combined AEBITDA," which includes reconciliations for several non-GAAP financial measures. Consolidated AEBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Consolidated AEBITDA may differ from similarly titled measures presented by other companies.

Consolidated AEBITDA is reconciled to Net income and includes the following adjustments, as applicable: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (2) Depreciation, amortization and impairment charges and Goodwill impairments; (3) Loss on debt financing transactions; (4) Change in fair value of investments and Gain on remeasurement of debt and other; (5) Interest expense; (6) Income tax expense and impact on adjustments; (7) Stock-based compensation; and (8) Other (income) expense, net, including foreign currency gains or losses and earnings from equity investments. AEBITDA is presented exclusively as our segment measure of profit or loss. Consolidated AEBITDA target denotes a non-GAAP financial measure. We are not providing a forward-looking quantitative reconciliation of Consolidated AEBITDA

target to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

## Grover Adjusted EBITDA

Grover Adjusted EBITDA, as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure, is unaudited and based on preliminary estimates and assumptions, and is reconciled to Grover Charitable Gaming's operating income, the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Grover Adjusted EBITDA and Combined AEBITDA." Grover Adjusted EBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Grover Adjusted EBITDA may differ materially from similarly titled measures presented by other companies, including Consolidated AEBITDA, and is presented solely for the purposes of calculating and reconciling Combined AEBITDA and calculating Combined net debt leverage ratio, including periods prior to the acquisition. Grover Adjusted EBITDA is not calculated consistently with Consolidated AEBITDA, and includes different adjustments based on the unaudited and preliminary financial statements provided by Grover's management prior to the closing of the acquisition.

Grover Adjusted EBITDA is reconciled to Grover Charitable Gaming's operating income, and includes the following adjustments, as applicable: (1) depreciation and amortization; (2) other income/expenses primarily related to non-operating gain and losses; and (3) elimination of certain non-recurring distribution costs expected to be eliminated in connection with the consummation of the acquisition and certain other immaterial adjustments.

## Combined AEBITDA

Combined AEBITDA, as used herein, is a non-GAAP financial measure that combines Consolidated AEBITDA and Grover Adjusted EBITDA and is presented as a supplemental disclosure. Combined AEBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Combined AEBITDA may differ from similarly titled measures presented by other companies and is presented only for purposes of calculating and reconciling Combined net debt leverage ratio.

## Consolidated AEBITDA Margin

Consolidated AEBITDA margin, as used herein, represents our Consolidated AEBITDA (as defined above) calculated as a percentage of consolidated revenue. Consolidated AEBITDA margin is a non-GAAP financial measure that is presented as a supplemental disclosure for illustrative purposes only and is reconciled to net income, the most directly comparable GAAP measure, in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT."

# Non-GAAP Financial Measures (continued)

## Free Cash Flow and Adjusted Free Cash Flow

Free cash flow, as used herein, represents net cash provided by operating activities less total capital expenditures, less payments on license obligations, plus payments on contingent acquisition considerations and adjusted for changes in restricted cash impacting working capital. Adjusted Free cash flow is further adjusted for legal settlements and strategic initiatives cash payments. Free cash flow and Adjusted Free cash flow are non-GAAP financial measures that are presented as supplemental disclosures for illustrative purposes only and are reconciled to net cash provided by operating activities, the most directly comparable GAAP measure, in the schedule titled "L&W Reconciliation of Net Cash Provided by Operating Activities to Free Cash Flow and Adjusted Free Cash Flow." Adjusted Free cash flow conversion, as used herein, represents Adjusted Free cash flow calculated as a percentage of Consolidated AEBITDA or Adjusted NPATA (as defined above), as applicable. Adjusted Free cash flow conversion is a non-GAAP financial measure that is presented as a supplemental disclosure for illustrative purposes only.

## Net Debt, Net Debt Leverage Ratio and Combined Net Debt Leverage Ratio

Net debt is defined as total principal face value of debt outstanding, the most directly comparable GAAP measure, less cash and cash equivalents. Principal face value of debt outstanding includes the face value of debt issued under Senior Secured Credit Facilities and Senior Notes, which are described in Note 14 of the Company's Annual Report on Form 10-K for the year ended December 31, 2025 and in Note 10 of the Company's Quarterly Report on Form 10-Q for the three months ended March 31, 2026.

Net debt leverage ratio, as used herein, represents Net debt divided by Consolidated AEBITDA. Combined net debt leverage ratio, as used herein, represents Net debt divided by Combined AEBITDA. The forward-looking non-GAAP financial measure targeted net debt leverage ratio is presented on a supplemental basis and does not reflect Company guidance. We are not providing a forward-looking quantitative reconciliation of targeted net debt leverage ratio to the most directly comparable GAAP measure because we are unable to predict with reasonable certainty the ultimate outcome of certain significant items without unreasonable effort. These items are uncertain, depend on various factors and could have a material impact on GAAP reported results for the relevant period.
